ICT
to drive Your Business
ICT Security

Security Services

together with

Relying on trusted technology and all the skills and experience required to face security risks and ensure business continuity

- We take care of security across all sections of your ICT infrastructure.
- We secure the network and the network access, the applications, the data.
- We give advice and manage your security measures, if required.

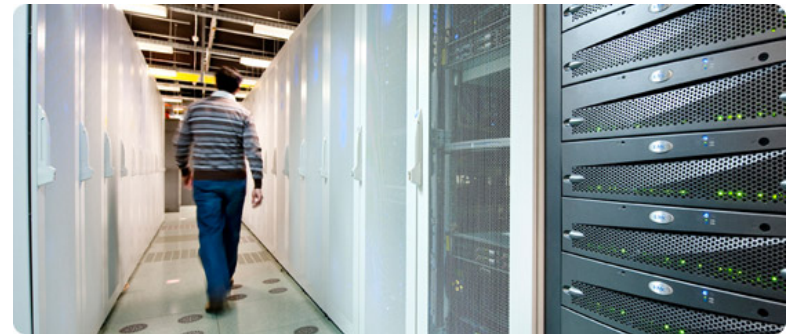

Why is a company vulnerable to the attacks?

- Increased volume of sophisticated attacks to corporate networks, including wireless
- Malicious intent (i.e., theft, data destruction, extortion)
- Inadequate information security strategy
- Organizational changes
- Internally developed software with less security in mind
- Incompatible or noninteroperable security products
